

SL2312A-12 INGROUND LUMINAIRE

GENERAL & MECHANICAL FEATURES

Dimension:	L500*W80*H114mm
Housing:	Stainless steel front plate
	Extruded aluminum lamp body
	Aluminum alloy buried sleeve
Diffuser	Clear tempered glass
Ingress Protection:	IP67
Operating Temperature:	from -25 °C to +50°C
Impact Resistance:	IK10

DESCRIPTION

Inground luminaire for illuminating the structures and facade surfaces with light multiple beam distribution options. Designed for use in shopping, pedestrian & park areas. Main characteristics are low glare.

LIGHTING & ELECTRICAL FEATURES

Lamp source:	LED
Average LED Life:	50000 Hrs.
CCT:	3000K
Lamp Lumens:	100-110 Lm/W
Total Delivered Lumens:	70-80 Lm/W
Power:	14 W
Beam Angle	8°/12.5°/20°/30°/45°/60°/15x30°/10x60°
Control Protocol:	On/off
Voltage:	AC 220V
Dimming:	No
Power Cables:	Includes 1.0m neoprene cable, H05RN-F, 3 *1.0mm ² .
